

Table of Contents

Executive Summary	S-1
1: Purpose and Need and Alternatives	1-1
1.0 Introduction	1-1
1.1 Project Area and Vicinity	1-2
1.1.1 Raritan Bay	1-2
1.1.2 Conference House Park and Other Area Open Spaces.....	1-2
1.1.3 Inland Areas	1-3
1.2 Project Background	1-3
1.2.1 Rebuilding and Resiliency Planning	1-4
1.2.2 Rebuild by Design.....	1-5
1.2.3 Ny Rising Community Reconstruction Program	1-6
1.2.4 Harbor Estuary and Raritan Bay Planning	1-6
1.2.5 Raise Shorelines Citywide Study	1-7
1.2.6 City, State and Federal Agency Coordination.....	1-7
1.3 Project Purpose, Need, and Objectives.....	1-8
1.3.1 Purpose.....	1-8
1.3.2 Need	1-9
1.4 Design Methodology	1-9
1.4.1 Breakwaters Project	1-9
1.4.2 Shoreline Project	1-10
1.5 Project Alternatives	1-11
1.5.1 Alternatives Analyzed in this EIS	1-11
1.5.2 Alternative 3—Breakwaters without Shoreline Protection System	1-19
1.5.3 Alternative 4—Shoreline Protection System without Breakwaters	1-19
1.5.4 Alternatives Considered and Eliminated.....	1-20
1.6 Potential Regulatory Approvals.....	1-25
1.6.1 Federal.....	1-25
1.6.2 State of New York.....	1-25
1.6.3 City of New York.....	1-26
1.7 Preliminary Consultation.....	1-26
1.8 Environmental Review Process	1-27
1.8.1 Scoping Process	1-27
1.8.2 Environmental Impact Statement	1-28
1.8.3 Ongoing Consultation and Public Engagement	1-28
2: Land Use, Zoning, and Public Policy	2-1
2.0 Introduction	2-1
2.0.1 Study Area.....	2-1
2.1 Principal Conclusions	2-1

Coastal and Social Resiliency Initiatives for Tottenville Shoreline DEIS

2.2	Regulatory Context	2-2
2.2.1	Methodology.....	2-3
2.3	Existing Conditions.....	2-3
2.3.1	Land Use.....	2-3
2.3.2	Zoning.....	2-4
2.3.3	Public Policy.....	2-5
2.4	Effects Assessment	2-9
2.4.1	Alternative 1—No Action Alternative.....	2-9
2.4.2	Alternative 2 (Preferred Alternative)—the Layered Tottenville Shoreline Resiliency Strategy: Living Breakwaters and Tottenville Shoreline Protection Project (Layered Strategy)	2-10
2.4.3	Alternative 3—Breakwaters Without Shoreline Protection System.....	2-13
2.4.4	Alternative 4—Shoreline Protection System Without Breakwaters	2-13
2.5	Minimization and Mitigation of Impacts	2-14
3:	Socioeconomic Conditions.....	3-1
3.0	Introduction.....	3-1
3.1	Principal Conclusions	3-1
3.2	Regulatory Context	3-3
3.2.1	Socioeconomic Impact Assessment Requirements	3-3
3.2.2	Benefit-Cost Analysis.....	3-4
3.2.3	Economic Benefits of Construction.....	3-4
3.3	Methodology	3-5
3.3.1	Socioeconomic Impact Assessment.....	3-5
3.3.2	Economic Benefits of Construction.....	3-7
3.4	Existing Conditions.....	3-8
3.4.1	Demographic Profile.....	3-8
3.4.2	Household and Income Profile	3-9
3.4.3	Housing Profile.....	3-11
3.4.4	Recent Residential Trends	3-13
3.4.5	Business Profile	3-14
3.4.6	Economic Profile of the Socioeconomic Study Area	3-15
3.5	Effects Assessment	3-16
3.5.1	Alternative 1—No Action Alternative.....	3-16
3.5.2	Alternative 2—the Layered Tottenville Shoreline Resiliency Strategy: Living Breakwaters and Tottenville Shoreline Protection Project (Layered Strategy)	3-17
3.5.3	Alternative 3—Breakwaters Without Shoreline Protection System.....	3-19
3.5.4	Alternative 4—Shoreline Protection System Without Breakwaters.....	3-20
3.6	Economic Benefits of Construction	3-21
3.6.1	Alternative 1—No Action Alternative.....	3-21
3.6.2	Alternative 2—the Layered Tottenville Shoreline Resiliency Strategy: Living Breakwaters and Tottenville Shoreline Protection Project (Layered Strategy)	3-21
3.6.3	Alternative 3—Breakwaters Without Shoreline Protection System.....	3-23
3.6.4	Alternative 4—Shoreline Protection System Without Breakwaters.....	3-25
3.7	Minimization and Mitigation of Impacts	3-26
4:	Environmental Justice	4-1
4.0	Introduction and Background	4-1

4.1	Principal Conclusions	4-1
4.2	Methodology.....	4-2
4.2.1	CEQ Guidance	4-2
4.2.2	Analysis Steps	4-2
4.3	Environmental Justice Populations in the Study Area.....	4-3
4.4	Public Participation	4-4
4.5	Effects Assessment.....	4-6
 5: Historic and Cultural Resources		5-1
5.0	Introduction	5-1
5.1	Principal Conclusions	5-1
5.1.1	Archaeological Resources	5-1
5.1.2	Architectural Resources	5-3
5.2	Regulatory Context.....	5-4
5.2.1	National Historic Preservation Act (Section 106).....	5-4
5.2.2	New York State Historic Preservation Act	5-6
5.3	Methodology.....	5-6
5.3.1	Definition of the Area of Potential Effect	5-6
5.3.2	Identification of Historic Properties within the APEs.....	5-7
5.3.3	Evaluation of Potential Effects on Historic Properties.....	5-11
5.4	Affected Environment/Existing Setting.....	5-11
5.4.1	Archaeological Resources	5-11
5.4.2	Architectural Resources	5-15
5.5	Effects Assessment.....	5-18
5.5.1	Alternative 1—No Action Alternative	5-18
5.5.2	Alternative 2—(Preferred Alternative)—the Layered Tottenville Shoreline Resiliency Strategy: Living Breakwaters and Tottenville Shoreline Protection Project (Layered Strategy).....	5-19
5.5.3	Alternative 3—Breakwaters without Shoreline Protection System	5-22
5.5.4	Alternative 4—Shoreline Protection System without Breakwaters	5-24
5.5.5	Minimization and Mitigation of Impacts	5-26
 6: Urban Design and Visual Resources		6-1
6.0	Introduction	6-1
6.1	Principal Conclusions	6-1
6.2	Regulatory Context.....	6-2
6.2.1	CEQR Technical Manual Guidelines	6-2
6.2.2	NYSDEC Guidelines	6-3
6.3	Methodology.....	6-8
6.3.1	Viewer Groups	6-8
6.4	Affected Environment/Existing Setting.....	6-9
6.4.1	Urban Design	6-9
6.4.2	Views, Aesthetic and Visual Resources, and Viewer Groups.....	6-10
6.5	Effects Assessment.....	6-13
6.5.1	Alternative 1—No Action Alternative	6-13
6.5.2	Alternative 2 (Preferred Alternative)—the Layered Tottenville Shoreline Resiliency Strategy: Living Breakwaters and Tottenville Shoreline Protection Project (Layered Strategy).....	6-13

Coastal and Social Resiliency Initiatives for Tottenville Shoreline DEIS

6.5.3 Alternative 3—Breakwaters without Shoreline Protection System.....6-17

6.5.4 Alternative 4—Shoreline Protection System without Breakwaters.....6-18

6.6 Minimization and Mitigation of Impacts 6-19

7: Shadows7-1

7.0 Introduction..... 7-1

7.0.1 Shadow Assessment Requirement..... 7-1

7.1 Principal Conclusions 7-2

7.2 Definitions and Methodology 7-3

7.2.1 Definitions 7-3

7.2.2 Methodology..... 7-4

7.3 Preliminary Screening Assessment and Detailed Analysis..... 7-4

7.3.1 Tier 1 Screening Assessment..... 7-4

7.3.2 Tier 2 Screening Assessment..... 7-5

7.3.3 Tier 3 Screening Assessment..... 7-5

7.3.4 Detailed Analysis..... 7-6

7.4 Effects Assessment 7-6

7.4.1 Alternative 1—No Action Alternative..... 7-6

7.4.2 Alternative 2 (Preferred Alternative)—the Layered Tottenville Shoreline Resiliency Strategy: Living Breakwaters and Tottenville Shoreline Protection Project (Layered Strategy) 7-7

7.4.3 Alternative 3—Breakwaters without Shoreline Protection System..... 7-8

7.4.4 Alternative 4—Shoreline Protection System without Breakwaters..... 7-8

7.5 Minimization and Mitigation of Impacts 7-8

8: Hazardous Materials8-1

8.0 Introduction..... 8-1

8.1 Principal Conclusions 8-1

8.2 Methodology 8-2

8.2.1 Study Area 8-2

8.3 Existing Conditions..... 8-2

8.3.1 Database Review 8-2

8.3.2 Historical Sanborn Map and Aerial Photograph Review..... 8-3

8.3.3 Nearby Hazardous Operations..... 8-3

8.3.4 Previous Report Review 8-3

8.4 Effects Assessment 8-4

8.4.1 Alternative 1—No Action Alternative..... 8-4

8.4.2 Alternative 2—(Preferred Alternative)—the Layered Tottenville Shoreline Resiliency Strategy: Living Breakwaters and Tottenville Shoreline Protection Project (Layered Strategy) 8-4

8.4.3 Alternative 3—Breakwaters Without Shoreline Protection System..... 8-6

8.4.4 Alternative 4—Shoreline Protection System Without Breakwaters..... 8-6

8.5 Minimization and Mitigation of Impacts 8-6

9: Natural Resources9-1

9.0 Introduction.....9-1

9.1 Principal Conclusions9-1

9.2 Regulatory Context9-5

9.2.1	Federal.....	9-5
9.3	Methodology.....	9-9
9.3.1	Study Area.....	9-9
9.3.2	Existing Conditions.....	9-10
9.3.3	The Future without the Proposed Actions.....	9-12
9.3.4	Effects Assessment.....	9-13
9.4	Existing Conditions.....	9-17
9.4.1	Groundwater.....	9-17
9.4.2	Wetlands.....	9-17
9.4.3	Aquatic Resources.....	9-19
9.4.4	Terrestrial Resources.....	9-48
9.4.5	Terrestrial and Aquatic Threatened, Endangered, and Special Concern Species.....	9-56
9.5	Effects Assessment.....	9-61
9.5.1	Alternative 1—No Action Alternative.....	9-61
9.5.2	Alternative 2 (Preferred Alternative)—the Layered Tottenville Shoreline Resiliency Strategy: Living Breakwaters and Tottenville Shoreline Protection Project (Layered Strategy).....	9-65
9.5.3	Alternative 3—Breakwaters without Shoreline Protection System.....	9-92
9.6	Minimization and Mitigation of Impacts.....	9-97
9.7	Literature Cited.....	9-99
 10: Floodplains and Coastal Erosion Hazard Areas.....		 10-1
10.0	Introduction.....	10-1
10.1	Principal Conclusions.....	10-1
10.1.1	Study Area.....	10-3
10.2	Regulatory Context.....	10-3
10.2.1	Federal.....	10-3
10.2.2	State.....	10-3
10.3	Existing Conditions.....	10-4
10.3.1	Floodplains.....	10-5
10.3.2	Coastal Erosion Hazard Area (CEHA).....	10-5
10.4	Effects Assessment.....	10-6
10.4.1	Alternative 1—No Action Alternative.....	10-6
10.4.2	Alternative 2 (Preferred Alternative)—the Layered Tottenville Shoreline Resiliency Strategy: Living Breakwaters and Tottenville Shoreline Protection Project (Layered Strategy).....	10-6
10.4.3	Alternative 3—Breakwaters without Shoreline Protection System.....	10-10
10.4.4	Alternative 4—Shoreline Protection System without Breakwaters.....	10-11
10.5	Minimization and Mitigation of Impacts.....	10-12
10.6	Literature Cited.....	10-12
 11: Sewer and Water Infrastructure.....		 11-1
11.0	Introduction.....	11-1
11.1	Principal Conclusions.....	11-1
11.2	Methodology.....	11-3
11.2.1	Study Area.....	11-3
11.2.2	Water Supply.....	11-4
11.2.3	Wastewater and Stormwater Conveyance and Treatment.....	11-5

Coastal and Social Resiliency Initiatives for Tottenville Shoreline DEIS

11.3	Existing Conditions.....	11-5
11.3.1	Wastewater	11-5
11.3.2	Stormwater	11-5
11.4	Effects Assessment	11-7
11.4.1	Alternative 1—No Action Alternative.....	11-7
11.4.2	Alternative 2 (Preferred Alternative)—the Layered Tottenville Shoreline Resiliency Strategy: Living Breakwaters and Tottenville Shoreline Protection Project (Layered Strategy)	11-7
11.4.3	Alternative 3—Breakwaters without Shoreline Protection System.....	11-10
11.4.4	Alternative 4—Shoreline Protection System without Breakwaters.....	11-11
11.5	Minimization and Mitigation of Impacts	11-11
12:	Transportation	12-1
12.0	Introduction.....	12-1
12.1	Principal Conclusions	12-1
12.2	Preliminary Analysis Methodology	12-2
12.2.1	Transportation-Generating Project Elements	12-2
12.3	Effects Assessment	12-4
12.3.1	Alternative 1—No Action Alternative.....	12-4
12.3.2	Alternative 2 (Preferred Alternative)—the Layered Tottenville Shoreline Resiliency Strategy: Living Breakwaters and Tottenville Shoreline Protection Project (Layered Strategy)	12-5
12.3.3	Alternative 3—Breakwaters without Shoreline Protection System.....	12-6
12.3.4	Alternative 4—Shoreline Protection System without Breakwaters.....	12-6
12.4	Minimization and Mitigation of Impacts	12-7
13:	Air Quality	13-1
13.0	Introduction.....	13-1
13.1	Principal Conclusions	13-2
13.2	Pollutants for Analysis.....	13-2
13.2.1	Carbon Monoxide.....	13-3
13.2.2	Nitrogen Oxides, VOCs, and Ozone.....	13-3
13.2.3	Lead.....	13-3
13.2.4	Respirable Particulate Matter—Pm10 and Pm2.5	13-4
13.2.5	Sulfur Dioxide	13-4
13.2.6	Noncriteria Pollutants.....	13-5
13.3	Air Quality Regulations, Standards, and Benchmarks.....	13-5
13.3.1	National and State Air Quality Standards.....	13-5
13.3.2	NAAQS Attainment Status and State Implementation Plans	13-7
13.3.3	General Conformity.....	13-8
13.3.4	Determining the Significance of Air Quality Impacts.....	13-8
13.4	Methodology	13-10
13.4.1	Stationary Sources	13-10
13.4.2	Parking Facilities	13-13
13.4.3	General Conformity.....	13-14
13.5	Effects Assessment	13-15
13.5.1	Alternative 1—No Action Alternative.....	13-15

13.5.2	Alternative 2 (Preferred Alternative)—the Layered Tottenville Shoreline Resiliency Strategy: Living Breakwaters and Tottenville Shoreline Protection Project (Layered Strategy).....	13-15
13.5.3	Alternative 3—Breakwaters without Shoreline Protection System	13-17
13.5.4	Alternative 4—Shoreline Protection System without Breakwaters	13-17
13.6	Minimization and Mitigation of Impacts.....	13-17
14:	Greenhouse Gas Emissions	14-1
14.0	Introduction	14-1
14.1	Principal Conclusions	14-1
14.2	Pollutants of Concern	14-2
14.3	Policy, Regulations, Standards, and Benchmarks for Reducing GHG Emissions ..	14-3
14.4	Methodology.....	14-5
14.4.1	Construction Mobile Source Emissions	14-6
14.4.2	Construction On-Site and Embedded Emissions	14-7
14.4.3	Tree Removal.....	14-8
14.5	Effects Assessment.....	14-8
14.6	Consistency with Emissions Reduction Policies	14-9
14.6.1	Build Efficient Buildings	14-9
14.6.2	Use Clean Power	14-9
14.6.3	Transit-Oriented Development and Sustainable Transportation	14-9
14.6.4	Reduce Construction Operation Emissions.....	14-10
14.6.5	Use Building Materials with Low Carbon Intensity	14-10
15:	Climate Change Adaption and Resilience	15-1
15.0	Introduction	15-1
15.1	Principal Conclusions	15-1
15.2	Development of Policy to Improve Climate Change Resilience	15-1
15.3	Effects Assessment.....	15-4
15.3.1	Alternative 1—No Action Alternative	15-4
15.3.2	Alternative 2 (Preferred Alternative)—the Layered Tottenville Shoreline Resiliency Strategy: Living Breakwaters and Tottenville Shoreline Protection Project (Layered Strategy).....	15-5
15.3.3	Alternative 3—Breakwaters without Shoreline Protection System	15-7
15.3.4	Alternative 4—Shoreline Protection System without Breakwaters	15-8
15.4	Minimization and Mitigation of Impacts.....	15-9
16:	Noise.....	16-1
16.0	Introduction	16-1
16.1	Principal Conclusions	16-1
16.2	Acoustical Fundamentals.....	16-1
16.2.1	“A”-Weighted Sound Level (dBA).....	16-2
16.2.2	Sound Level Descriptors	16-2
16.3	Regulatory Context.....	16-3
16.3.1	New York CEQR Noise Criteria.....	16-3
16.3.2	Federal Development Guidelines	16-5
16.4	Existing Noise Levels.....	16-5
16.4.1	Equipment Used During Noise Monitoring	16-5

Coastal and Social Resiliency Initiatives for Tottenville Shoreline DEIS

16.4.2	Measured Existing Noise Levels	16-6
16.5	Noise Attenuation Measures	16-6
16.6	Mechanical System	16-7
16.7	Minimization and Mitigation of Impacts	16-7
17:	Construction	17-1
17.0	Introduction.....	17-1
17.1	Principal Conclusions	17-1
17.1.1	Land Use, Neighborhood Character, Socioeconomic Conditions, and Open Space	17-1
17.1.2	Historic and Cultural Resources	17-2
17.1.3	Visual Resources	17-3
17.1.4	Hazardous Materials.....	17-4
17.1.5	Natural Resources.....	17-4
17.1.6	Transportation, Air Quality, Noise, and Vibration	17-5
17.2	Governmental Coordination and Oversight.....	17-6
17.2.1	Federal	17-7
17.2.2	State	17-7
17.3	Construction Description	17-8
17.3.1	Construction Phasing and Schedule	17-8
17.3.2	General Construction Practices	17-10
17.3.3	General Construction Tasks.....	17-11
17.4	Effects Assessment	17-16
17.4.1	Alternative 1—No Action Alternative.....	17-16
17.4.2	Alternative 2 (Preferred Alternative)—the Layered Tottenville Shoreline Resiliency Strategy: Living Breakwaters and Tottenville Shoreline Protection Project (Layered Strategy)	17-16
17.4.3	Alternative 3—Breakwaters without Shoreline Protection System.....	17-39
17.4.4	Alternative 4—Shoreline Protection System without Breakwaters.....	17-54
17.5	Minimization and Mitigation of Impacts.....	17-64
18:	Public Health	18-1
19:	Neighborhood Character.....	19-1
19.0	Introduction.....	19-1
19.1	Principal Conclusions	19-1
19.2	Methodology	19-2
19.3	Preliminary Assessment.....	19-2
19.3.1	Defining Features of the Neighborhood	19-2
19.3.2	Potential to Affect Defining Features of the Neighborhood.....	19-4
19.4	Minimization and Mitigation of Impacts	19-7
20:	Mitigation and Minimization of Impacts	20-1
20.0	Introduction.....	20-1
20.1	Measures to Minimize or Avoid Impacts.....	20-1
20.1.1	Historic and Cultural Resources	20-1
20.1.2	Hazardous Materials	20-2
20.1.3	Natural Resources.....	20-3

20.1.4 Sewer and Water Infrastructure.....	20-5
21: Indirect and Cumulative Effects	21-1
21.0 Introduction	21-1
21.1 Indirect Effects	21-1
21.2 Cumulative Effects	21-4
21.2.1 Actions Considered in the Cumulative Analysis.....	21-4
21.2.2 Potential Cumulative Impacts	21-6
22: Unavoidable Adverse Effects	22-1
22.0 Introduction	22-1
22.1 Archaeological Resources	22-1
23: Irreversible and Irretrievable Commitment of Resources	23-1
23.0 Introduction	23-1
23.1 Alternative 1—No Action Alternative	23-1
23.2 Alternative 2 (Preferred Alternative)—the Layered Tottenville Shoreline Resiliency Strategy: Living Breakwaters and Tottenville Shoreline Protection Project (Layered Strategy)	23-1
23.3 Alternative 3—Breakwaters without Shoreline Protection System.....	23-2
23.4 Alternative 4—Shoreline Protection System without Breakwaters.....	23-3

17-3	Alternative 2—Average Number of Daily Workers and Trucks by Year and Quarter	17-24
17-4	Alternative 2—Peak Construction Vehicle Trip Projections (4th Quarter of 2019).....	17-25
17-5	Alternative 2—Emissions from Construction Activities (Ton/Yr).....	17-31
17-6	Typical Construction Equipment Noise Emission Levels (dBA)	17-33
17-7	Vibration Source Levels for Construction Equipment.....	17-38
17-8	Alternative 3—Average Number of Daily Workers and Trucks by Year and Quarter	17-44

Coastal and Social Resiliency Initiatives for Tottenville Shoreline DEIS

17-9 Alternative 3—Peak Construction Vehicle Trip Projections (4th Quarter of 2019) ..17-45

17-10 Alternative 3—Emissions from Construction Activities (Ton/Yr)17-48

17-11 Vibration Source Levels for Construction Equipment17-53

17-12 Alternative 4—Average Number of Daily Workers and Trucks by Year and Quarter.....17-58

17-13 Alternative 4—Peak Construction Vehicle Trip Projections (1st and 2nd Quarter of 2019)17-59

17-14 Alternative 4—Emissions from Construction Activities (Ton/Yr)17-62

List of Figures

Following page:

S-1	Project Area	S-2
S-2	Shoreline Change 1978–2012.....	S-10
S-3	Shoreline Change under No Action Alternative	S-12
S-4	Project Location.....	S-12
S-5	Proposed Breakwaters Project	S-14
S-6	View of Proposed Breakwaters Structures	S-14
S-7	Proposed Breakwater Types	S-14
S-8	Shoreline Change with and without Proposed Actions	S-14
S-9	Proposed Breakwater Materials.....	S-14
S-10	Proposed Water Hub Location 1—Page West Option.....	S-16
S-11	Proposed Water Hub Location 1—Page East Option.....	S-16
S-12	Proposed Water Hub Location 1—Page West Option Sections	S-16
S-13	Proposed Water Hub Location 1—Page East Option Sections	S-16
S-14	Proposed Water Hub Location 2—Biddle House Option.....	S-16
S-15	Proposed Water Hub Location 2—Rutan-Beckett Option	S-16
S-16	Proposed Water Hub Location 2—Water Access at Existing Pavilion	S-16
S-17	Proposed Shoreline Project.....	S-18
S-18	Proposed Earthen Berm	S-18
S-19	Proposed Hybrid Dune	S-18
S-20	Proposed Eco-Revetment	S-18
S-21	Proposed Raised Edge	S-18
1-1	Project Area	1-2
1-2	Shoreline Change 1978–2012.....	1-10
1-3	Shoreline Change under No Action Alternative	1-12
1-4	Project Location.....	1-12
1-5	Proposed Breakwaters Project	1-14
1-6	View of Proposed Breakwaters Structures	1-14
1-7	Proposed Breakwater Types	1-14
1-8	Shoreline Change with and without Proposed Actions	1-14
1-9	Proposed Breakwater Materials.....	1-16
1-10	Proposed Water Hub Location 1—Page West Option.....	1-16
1-11	Proposed Water Hub Location 1—Page East Option.....	1-16
1-12	Proposed Water Hub Location 1—Page West Option Sections	1-16
1-13	Proposed Water Hub Location 1—Page East Option Sections	1-16

Coastal and Social Resiliency Initiatives for Tottenville Shoreline DEIS

1-14	Proposed Water Hub Location 2—Biddle House Option	1-16
1-15	Proposed Water Hub Location 2—Rutan-Beckett Option.....	1-16
1-16	Proposed Water Hub Location 2—Water Access at Existing Pavilion	1-16
1-17	Proposed Shoreline Project	1-18
1-18	Proposed Earthen Berm	1-18
1-19	Proposed Hybrid Dune.....	1-18
1-20	Proposed Eco-Revetment.....	1-18
1-21	Proposed Raised Edge.....	1-20
1-22	Coastal Strategy Alternative: Levee.....	1-22
1-23	Breakwaters Design Features	1-22
1-24	Design Scenarios: 1 through 3	1-24
1-25	Design Scenarios: 4 through 7	1-24
1-26	Design Scenarios: 8 through 11	1-24
1-27	Design Scenarios: 12 through 15	1-24
1-28	Design Alternative: Dune without Stone Core.....	1-24
1-29	Design Alternative: Dune with Stone Core.....	1-24
2-1	Land Use, Zoning, and Public Policy Study Area	2-2
2-2	Existing Land Use.....	2-4
2-3	Zoning	2-4
2-4	NYC Coastal Zone Management Area	2-12
3-1	Socioeconomic Study Area.....	3-6
3-2	Age Distribution: 2011-2015 ACS	<i>on</i> 3-9
3-3	Household Income Distribution: 2000 and 2011-2015 ACS	<i>on</i> 3-11
3-4	Housing Tenure: 2000 and 2011-2015 ACS	<i>on</i> 3-12
4-1	Environmental Justice Study Area.....	4-2
5-1a	Historic and Cultural Resources—Project Location	5-8
5-1b	Areas of Archaeological Sensitivity	5-10
5-2	Historic and Cultural Resources Photographs.....	5-16
5-3	Historic and Cultural Resources Photographs.....	5-18
5-4	Historic and Cultural Resources Photographs.....	5-18
5-5	Historic and Cultural Resources Photographs.....	5-18
6-1	Urban Design and Visual Resources: Project Location and Study Area	6-2
6-2	Existing Views 1 and 2	6-10
6-3	Existing View 3.....	6-12
6-4	Existing Views 4 and 5	6-12
6-5	Existing View 6.....	6-12
6-6	Existing Views 7 and 8	6-12
6-7	Existing View 9.....	6-12
6-8	Urban Design and Visual Resources: Aerial and Reference Map	6-14
6-9	View Southeast from Shoreline (at approximately Finlay Street)	6-14
6-10	View South from Potential Page West Water Hub Site	6-14

6-11	Ottavio Promenade Looking West from Page Avenue toward Page West Water Hub Site	6-14
6-12	Page Avenue Looking Southeast toward Page East Water Hub Site.....	6-14
6-13	View Looking South on Brighton Street from Billop Avenue; Conference House Park to the Right	6-16
6-14	Shoreline at Yetman Avenue Looking East.....	6-16
6-15	View Looking West from Manhattan Street.....	6-16
6-16	View Looking West from Sprague Avenue.....	6-16
6-17	Shoreline at Page Avenue Looking West.....	6-16
6-18	Sprague Avenue Lookout Looking East.....	6-16
6-19	View West from Surf Avenue	6-18
6-20	Brighton Avenue Looking South.....	6-18
6-21	Loretto Street Looking South toward Waterfront.....	6-18
6-22	Sprague Avenue Looking South toward Waterfront	6-18
7-1	Water Hub Potential Location 1—Tier 1 Assessment.....	7-4
7-2	Water Hub Potential Location 1—Tier 2 Assessment.....	7-6
7-3	Water Hub Potential Location 1—Tier 3 Assessment.....	7-6
7-4	Water Hub Potential Location 1—Three-Dimensional Model.....	7-6
7-5	Detailed Analysis: Water Hub Potential Location 1—Page West Option.....	7-8
7-6	Detailed Analysis: Water Hub Potential Location 1—Page West Option.....	7-8
7-7	Detailed Analysis: Water Hub Potential Location 2—Page East Option.....	7-8
7-8	Detailed Analysis: Water Hub Potential Location 2—Page East Option	7-8
9-1	Project Location.....	9-10
9-2a	Hard Bottom Sampling Locations July 2015.....	9-12
9-2b	Hard Bottom Sampling Locations September 2015	9-12
9-3a	Location of Benthic and Water Quality Sampling Stations June 2015	9-12
9-3b	Location of Benthic and Water Quality Sampling Stations September 2015.....	9-12
9-4	Location of Hard Clam and Sediment Sampling Stations September 2015	9-12
9-5	Horseshoe Crab Survey June 2015	9-12
9-6a	Location of Fish Sampling Stations June 2015	9-12
9-6b	Location of Fish Sampling Stations July 2015	9-12
9-6c	Location of Fish Sampling Stations September 2015.....	9-12
9-7	NYS Significant Habitats and Natural Communities	9-18
9-8	USFWS National Wetlands Inventory.....	9-18
9-9	NYDEC Freshwater and Tidal Wetlands	9-18
9-10	Delineated Tidal Wetland.....	9-20
9-11	NOAA Nautical Chart 12331	9-20
9-12	Bathymetry	9-20
9-13	New York City Harbor Survey Monitoring Locations and NYSDEC Surface Water Classifications in Raritan Bay.....	9-20
9-14	Sediment Characteristics: Side-Scan Sonar and Benthic Grabs	9-32

Coastal and Social Resiliency Initiatives for Tottenville Shoreline DEIS

9-15	Hard Clam Abundance per Sample in Macroinvertebrate Grab Samples September 2015	9-42
9-16	Components of the Proposed Breakwaters Project	9-66
9-17	Proposed Breakwater Reef Streets and Ridges	9-68
9-18	Proposed Breakwater Types.....	9-68
9-19	Proposed Breakwater Stone Configuration.....	9-70
9-20	Proposed Shoreline Project	9-70
9-21	Proposed Earthen Berm	9-72
9-22	Proposed Hybrid Dune.....	9-72
9-23	Proposed Eco-Revetment.....	9-72
9-24	Proposed Raised Edge.....	9-72
9-25	Proposed Oyster Restoration Techniques	9-84
10-1	Project Location	10-4
10-2	Shoreline Change 1978–2012	10-4
10-3	FEMA Flood Hazard Preliminary.....	10-6
10-4a	Coastal Erosion Hazard Area Map.....	10-6
10-4b	Coastal Erosion Hazard Area Map.....	10-6
10-5	Proposed Shoreline Project and CEHA.....	10-8
10-6a	Proposed Water Hub Location 1—Page West Option	10-8
10-6b	Proposed Water Hub Location 1—Page East Option	10-8
11-1	Project Location	11-4
15-1	Projected Potential Future Flood Zones.....	15-4
16-1	Noise Survey Location.....	16-6
