Community Reconstruction Report: June 1, 2016 - August 31, 2016

The NY Rising Community Reconstruction (NYRCR) Program is a first-of-its kind participatory program. It has grown to assist 124 storm-damaged communities, empowers communities to identify local needs and assets, and helps to develop projects through an intensive planning and implementation process. Following two rounds of planning, GOSR entered into local partnership agreements to work with subrecipients to define the scope of projects and procurement engineering and design consultants in compliance with federal regulations. By Q3, the total number of projects increased to 254, an additional 12% increase in projects over Q2, and a 51% increase from the number of projects in Q1. In July, the NYRCR hosted the first ground breaking event for the installation of generators in key facilities in the City of Amsterdam.
