

Living with the Bay

Rebuild by Design

The Governor’s Office of Storm Recovery invites the public to attend the second Rebuild by Design (RBD) Living with the Bay Citizens Advisory Committee (CAC) meeting at the Malverne Village Hall. The meeting will provide an update on projects activities that are occurring throughout the watershed and new developments within the RBD social resiliency program. The meeting will also provide the CAC members with a briefing of what other Federal disaster recovery projects are taking place within the watershed and we will further develop outreach and citizen engagement strategies for the project.

What is the Citizens Advisory Council (CAC): The CAC is a group of stakeholders assembled by the State to serve an important advisory and community engagement role with regard to planning and implementation of the Living with the Bay project.
