Please refer to the following instructions for changing the language settings in your browser to your preferred language.

Fire Fox

1. Click the menu button and select Options. Preferences.
2. In the Language section of the General panel, choose a language in the drop-down menu.
3. Restart Firefox.

Safari

1. Open 'Apple' menu.
2. Select 'System Preferences'.
3. Click on 'Language & Region'.
4. Click the '+' button near the bottom of the “Preferred languages” box.
5. Find and select your language.
6. Click 'Add'.
7. Drag and drop the language you want to use to the top of the language list.

Chrome

If you are on Mac or Linux, Chrome will automatically display in the default system language for your computer.

1. On your computer, open Chrome.
2. At the top right, click More ➤ Settings.
3. At the bottom, click Advanced.
5. Next to the language you'd like to use, click More ➤ .
   - If the language isn't listed, add it by clicking Add languages.
6. Click Display Google Chrome in this language or Display Chrome OS in this language.
   - This option is available on Windows and Chromebook computers.
7. Restart Chrome to apply the changes.
