

Living Breakwaters and Tottenville Dune Projects

The Governor's Office of Storm Recovery invites the public to attend the second Rebuild by Design Living Breakwaters Citizens Advisory Committee (CAC) meeting to discuss the coastal and social resiliency measures planned in and adjacent to Tottenville on Staten Island's South Shore.

Wednesday, November 18
7:00 to 9:00 pm

**Our Lady Help of
Christians**
23 Summit Street
Staten Island, NY

- 1 13,000 linear-foot ecologically enhanced offshore breakwater system to reduce wave energy at the shoreline and prevent shoreline erosion, in addition to a proposed community Water Hub (1a), which would provide a place for educational programs associated with the breakwater
- 2 Hardened dune system located along the Tottenville shoreline

Tottenville, Staten Island (for illustrative purposes only)

Meet the Living Breakwaters CAC and learn more about the progress of these projects. All are encouraged to attend. The Citizens' Advisory Committee is a group of stakeholders assembled by the State to receive updates on the Rebuild by Design (RBD) project. This CAC plays an important advisory role in the planning and implementation of the Living Breakwaters and Tottenville Dune projects.
