Opportunity Code: 16-059-001

Project Location: Nassau County

Estimated Start Date: Winter 2016-2017

Project Description: The purchase and installation of a 40kW diesel generator and automatic transfer switch on an elevated platform with railing is to be installed on the second floor of a fire department. An auxiliary manual generator connection is to be installed. Generator will have a 275 gallon underbelly diesel tank with a sound enclosure, and a remote diesel fill port and piping to be installed. A new access door and traffic columns are to be installed to the second floor. Installation of a new PSEGLI meter pan feed underground from the existing utility pole. New electrical panels are to be installed on the second floor and a refeed of all existing building circuits. A new electrical service is to be installed on the second floor. The building is located in an AE base flood zone and is at an elevation of 11 feet BFE. All electrical components are to be installed at an elevation of 2 feet above the BFE to 13 feet.

The existing 15kW natural gas generator at the fire department is located on the roof and is no longer operational. It is to be removed and disposed of. The existing PSEGLI meter pan and the two existing electrical panels, located on the first floor, will also be removed. The existing single phase electrical service is to be removed.
