### NATURAL AND CULTURAL RESOURCES

- |   |   |   |
|---|---|---|
|    |    | <ul style="list-style-type: none"> <li>• Preservation of historic/cultural resources (e.g. Oak Beach Community Center)</li> </ul> |
|    |    | <ul style="list-style-type: none"> <li>• Enhancement of dune restoration/replenishment programs</li> </ul>                        |
|   |   | <ul style="list-style-type: none"> <li>• Enhancement of wetlands restoration programs</li> </ul>                                  |
|  |  | <ul style="list-style-type: none"> <li>• Promote education/awareness of local ecology</li> </ul>                                  |
|  |  | <ul style="list-style-type: none"> <li>• Mitigation of Cedar Beach Marina environmental education center facility</li> </ul>      |

### HEALTH AND SOCIAL SERVICES

- |   |   |  |
|---|---|--|
|  |  | <ul style="list-style-type: none"> <li>• Enhancement of fire prevention/response (e.g. fire jetties, draft wells)</li> </ul>   |
|  |  | <ul style="list-style-type: none"> <li>• Promotion of the resilience, health, and well-being of affected individuals, recovery workers, and the communities</li> </ul> |
|  |  | <ul style="list-style-type: none"> <li>• Protection of potable water wells</li> </ul>  |
|  |  | <ul style="list-style-type: none"> <li>• Provision of backup power for private water sources</li> </ul>  |
|  |  | <ul style="list-style-type: none"> <li>• Maintaining communities' strong social connections</li> </ul>   |

### HOUSING

- |   |   |  |
|---|---|--|
|  |  | <ul style="list-style-type: none"> <li>• Updates to incentives for elevation or retrofit of homes</li> </ul>                     |
|  |  | <ul style="list-style-type: none"> <li>• Provision of emergency access to all residents (e.g. residential boardwalks)</li> </ul> |

# Needs and Opportunities

WEST GILGO TO CAPTREE

## COMMUNITY PLANNING AND CAPACITY BUILDING

- 

  - Enhancement of emergency management plans and procedures (e.g. evacuation 911 notification)
- 

  - Mitigation of facilities and infrastructure (elevation, relocation, retrofit)
- 

  - Updates to building codes, land use regulations, and design codes to protect the ecosystem, infrastructure, and public/private property

## INFRASTRUCTURE

- 

  - Mitigation of interruptions to cellular and landline service
- 

  - Stormwater management to reduce flooding/improve water quality
- 

  - Assessment of large-scale flood mitigation solutions
- 

  - Enhancement of local shoreline management infrastructure
- 

  - Mitigation of frequent power outages
- 

  - Enhancement of roadways/access routes to Ocean Parkway and mainland for access and evacuation
- 

  - Hardening of utilities/infrastructure connections to the mainland
- 

  - Assessment of solar and other green energy alternatives

## ECONOMIC DEVELOPMENT

- 

  - Mitigation of Captree Fleet facilities to minimize damage from future storms
