2 Erie Boulevard, Canajoharie, NY 13317

MONTGOMERY COUNTY NY RISING COMMUNITIES PUBLIC MEETING

NY Rising Community Reconstruction Program is a New York State initiative to empower communities hit hard by storms to create and implement innovative recovery plans that foster economic growth and resilience.

A Committee of Montgomery County representatives is working with the State to develop a community-driven plan to build back better – your input is important to this effort. We are looking for your feedback on the inventory of assets, the vision, needs and opportunities and preliminary resiliency projects and actions.

Your experience and knowledge of the community and region can help shape the Montgomery County NY Rising Communities plan for a more resilient future.

Please join us in this important effort to build back better!
