

Vision Statement

Picturesque Greater Bay Shore, including the mile-square Village of Brightwaters, is the heart of Long Island's South Shore. With the Great South Bay as our backyard, we are the gateway to the National Seashore, a lifeline to Fire Island, and serve over one million visitors each year. The economic vitality of our historic downtown and the nearby marinas, docks and ferry services are crucial to our identity and future well-being. We are proactively pursuing a future that supports a resilient and sustainable economy while also reducing damage from future storm events and strengthening our ability to recover from these events. Greater Bay Shore is a caring, culturally diverse community, united in spirit, purpose, and values.
