

***The NY Rising Community Reconstruction Program for Niagara County is assisting New Yorkers to rebuild better and safer through community-driven plans that consider current damage, future threats to community assets, and the community's economic future.***

***We need your input!*** Together with the NY Rising Niagara County Planning Committee and our project consulting team, the New York State Department of State invites you to an open house to discuss strategies for increasing the resilience of Niagara County in the face of extreme weather events. Community members are invited to share their knowledge on:

- *Assets that need to be protected from future storm events, and*
- *Specific needs and opportunities that will make the County more resilient*

*If you have questions or feedback regarding storm recovery in Niagara County, please join us for this important discussion, and visit:*
